

July 2017

New Crosslight Chapel Barhara, Nepal

Crosslight Chapel, Barhara, Nepal. We are grateful for another church plant in the eastern Himalayas. A team of volunteers sourced supplies and built the church in under one week. Special thanks to Cendal Engle and his brother Cody Engle from Detroit, Michigan, for their fundraising and leading the construction efforts. Our goal is to have one church plant in every district of Nepal within the next ten years. By God's grace, we endeavor to plant seventy-five churches within the next ten years.

Testimony of Manson and Grace Ng. Manson grew up in a Chinese Singapore Taoist family, but he trusted Christ in his late twenties. Grace, on the other hand, grew up in a Roman Catholic family in the Philippines. Last year, Susan and I had the privilege of leading Grace to the Lord and I baptized her shortly thereafter. For the past year, Manson and Grace have been doing weekly discipleship Bible studies with me. Before we left for furlough, they both registered for Bible Institute so that they can be prepared to help us lead at Crosslight Singapore and a future church plant in the Philippines.

Our first batch of graduates at our SEAL Leadership Training Centre in Nepal. The Training Centre was established as part of our efforts to train leaders in Nepal for ministry to the unreached people groups of the Himalayas.

10 baptisms in May. 4 salvations in June in Nepal. 6 salvations in the USA on our furlough trip.

This is a condensed version of our ministry update. Visit chanthachhim.com for a detailed report.

THANK YOU FOR YOUR DONATIONS

God works through your generous gifts to thake the Good News of Jesus Christ to Asia and around the world. We are grateful for your prayers and financial partnership.
